

### **Author guidelines for ISA Analytical Division Symposium.**

The presentation is two fold, a written paper and an oral presentation.

The written paper is peer reviewed and published in the symposium proceedings, very much like any other technical journal. The submitted abstract should be of 200 words or less, and accurately and concisely reflect the content of the written paper. There should be no commercialism in the paper, this is a technical conference. The abstract typically becomes the first part of the written paper. The first draft of the paper will be reviewed and comments passed back to the author.

The oral presentation is 25 minutes with 5 minutes of question time added, similar to any other conference [PowerPoint, etc]. The slides are pre-viewed by the review committee to ensure compliance with ISA rules and absence of commercialism.

Final instructions on format, etc. will be e-mailed to all accepted authors.
